AGENDA ITEM #1: Explore avenues of cooperation between CS and Faculty of Business Administration	Follow up action
<ul style="list-style-type: none"> - CS would like to develop a business option within the BSc (CS major); We explained that this can't be done in the short term because of lack of resources in our faculty; we will work to obtain additional resources in order to pursue this opportunity. - CS certificate - used to be a popular option for Administration students but demand has declined in recent years. Lack of demand could well be caused by a shortage of information available to our students about the certificate and useful courses. Agreed that it would be helpful for CS to identify specific courses that would be useful to BUS grads (and perhaps create a new course as well) and that once these were identified, BUS would create a information poster to for BUS students about the certificate and the best courses. 	<p>CS will determine a good set of courses for business students to take in a CS Certificate; once this has been done BUS will provide information to students about the certificate and set of courses.</p>
